DEVELOP A WEB APPLICATION USING NODE

TEAM ID	PNT2022TMID19330
PROJECT NAME	Project - Real time river water quality monitoring and control system
MAXIMUM MARKS	4

Add a **change** node. Double-click the node to modify it. Name this node `Set Earthquake Info`. In

the **Rules** section, add

rule to **Delete** `msg.topic,` `msg.headers,` `msg.statusCode,` `msg.responseUrl` and `msg.redirectList`

and **Set** `payload.features.`

`msg.payload`

```
{
  "type":properties.type,
  "magnitude": properties.mag,
  "location": properties.place,
  "longitude":geometry.coordinates[0],
  "latitude":geometry.coordinates[1],
  "depth":geometry.coordinates[2],
  "timestamp": $fromMillis( properties.time,
```
